ASHFIELD HOUSE

WE'RE NOT *NORMAL*

We are not a Manor, Hall or Castle. We are not a Barn, Hotel or Estate.

We are Ashfield *House*.

When couples take over exclusively for their wedding day, our house becomes like their home and we become like their extended family!

Our house is a gorgeous blank canvas for weddings, it is grand yet homely and is jam packed full of quirky details, magically managing to soak up the personality of each couple. Our house (and our team!) are fun and creative - but not so hipster your Nan won't approve!

Lets talk about the layout... we have created, in my humble opinion, the best wedding venue layout I've ever seen! Our rooms and spaces, designed specifically with weddings in mind, flow into one another. Some clever structural work has created generous bright rooms that retain the period details and charm of the age.

The atmosphere here is full of love and joy, probably because of the down to earth and very lovely wedding team; I wish I had a pound for every comment along the lines of "they couldn't do enough for us". Basically we're over here doing our dream job day in day out- we love what we're doing, we know what we're doing and we just do it, taking care of detail after detail with no fuss and no drama.

Ashfield House is not the norm... being an independent family business means we let couples do their thing without a load of rules getting in the way.

Getting Ready

It's no secret that weddings are well and truly our 'thing'! Every bit of the house is designed with weddings in mind and we know that getting ready in the morning is serious business.

Our Sitting Room is super practical (and stylish, of course), flooded with natural light, makeup stations, more plugs than you can shake a straightener at, comfy sofas, dress hooks, Bluetooth speaker and air-conditioning – no hot mess here!

The Sitting Room is no stranger to a beard trimmer and row of suits... it's not always all about the ladies.

We include freshly baked pastries and fruit in the morning or you can order your favourite breakfast. Enjoy unlimited nespressos and stock the fridge with whatever you need to calm the jitters!

Arrive as early as you like to get ready and come back throughout the day for a tidy up or a bit of quiet time. Having a separate space to get ready means that Room Number One is a clean and tidy oasis of loveliness to come back to when the party is over.

Getting married is arguably the most important part of the day and it deserves a spectacular space!

Our Ceremony Room is the most exciting blank canvas. It has wonderful power to adapt itself to any kind of theme or colour scheme, traditional or contemporary, rustic or polished, or maybe even a bit of everything!

The vaulted ceiling full of curiosities and numerous ledges can be styled to the max or left minimal to curate a space that feels like you.

The limewash Chiavari chairs can be arranged in a traditional ceremony layout or a romantic circular style where you can be literally surrounded by your guests! The room holds up to 130 guests depending on the layout you choose.

We can't choose your wedding music but we certainly can play it for you, in fact we'll pull everything together for you on the day so you can just enjoy it – we're award winning for a reason.

The Ceremony

The Day

So if you aren't familiar with the peculiar British phenomenon that is the wedding 'breakfast' let's bring you up to speed... it's not actually breakfast. Back in the day couples would fast before getting married and the meal after the wedding was to break-fast.

Anyway, we've got somewhere glorious for your wedding meal, overlooking the garden and terrace, its a bright and airy beautiful blank canvas ready to be transformed into something that really represents you.

Being independant from the Ceremony room means theres no turnaround time, your tables will be ready and setup whenever you are.

We can seat up to 120 formal dining guests in here. For intimate weddings, you can dine in one of our smaller rooms.

We have a stylish space to put all your 'stuff'. Think photos, trinkets, flip flops, guest books, candy, cakes and you can even project photos and videos onto the wall.

We love a good shindig and honestly we think we have THE best space to do it in. The bar, seating and DJ are different zones of the same space, this holy grail of layouts means guests won't be scattered all over the house (unless you want to spread out or have an outrageous number of party-goers).

The Library Bar is achingly cool and is fab for sinking into a sofa for a good chat. We host evening receptions up to 220 guests using both bars.

Hopefully you lovely readers will have realised by now that we don't do ordinary and our evening food is no exception. 'Buffet' is a swear word round here and we prefer to wander around with food, setup grazing tables or cook up a storm in our outdoor kitchen.

When it comes to entertainment we are self confessed DJ snobs... with every wedding booking, we include a DJ from The DFC Experience who are a multi award winning entertainments company. Their DJ's will chat with you over a brew and help you find a way to mix your beloved hard techno with Sweet Caroline to make sure your wedding is the absolute best. The online planner means you're in control of the vibe - you tell them what you do and don't want to hear.

Let's party!

The Party

The Bedrooms

Whitwoo, we have ourselves fifteen charming bedrooms upstairs, more than just a bed for the night, we think staying over at Ashfield House is a bit special.

Each one has a personality of it's own, some sassy ones, some classy ones and some quirky ones but they all come with everything our house guests need for a comfy stay!

Our lucky couples get to move into Room Number One for the night and they are in for a treat because it is ginormous, very beautiful and the bed is an astronomical 7 foot square. Whoa.

Clearly no overnight stay is complete without a big cooked breakfast and copious amounts of freshly brewed coffee, we think it's fabulous to share the stories and laughs from the night before. You'll be the only guests staying over so it feels like a proper family affair and if you have extras for breakfast just let us know and we'll arrange it for you.

Our rooms are a mix of doubles and family rooms and they are pretty big so extra beds can be added in to give groups the perfect room setup.

You do not need to book all the rooms and you'll only pay for the ones you book.

We love eating and drinking, but we don't love typical off the shelf wedding food and drink! We work hard to be creative and modern, serving food that you'd find at a rosette restaurant as opposed to a wedding.

People eat with their eyes and our food photo book lets couples choose food based on what it looks like, not just what it's like to eat – everything else is pretty, why not the food too!

It's super important to us to make sure our couples have food at their weddings that show the real them. If you want to eat what you had on your first date – you got it. If you want to recreate your favourite restaurant dish – no problemo. If you want to bring in a taste of where you're from – our pleasure!

For the hardcore foodies out there, our Chef's love nothing more than creating 6 course seasonal taster menus.

As I've already said, we're not normal... did you know we grow loads of our own food in the Kitchen Garden at our sister venue, a brew pub, down the road in Parbold. There we brew our own beer in our microbrewery, Problem Child Brewing.

Making couples happy gives us warm fuzzy feelings and it doesn't get any better than sourcing special drinks and food to make a wedding extra-ordinary if you want.

We are getting pretty darn great at doing food that's a tad less formal than the norm, think grazing tables, sharing boards and picnics. We know what works and what doesn't and we bring your ideas to life.

The House

“Hello, I’m Katie. When I met Ashfield House it was love at first sight! In 2009 I took over this sleepy little dated hotel on the brink of closure but buzzing with potential. It was, and still is, a labour of love for me and my family and it has been our privilege to transform it into something very special indeed.

Did we mention our house feels like a home? A home with a kick ass layout for weddings obviously! The Grand Hallway is the heart of the house and all of our rooms branch out from here. Big enough to feel grand but not so big you lose the atmosphere.

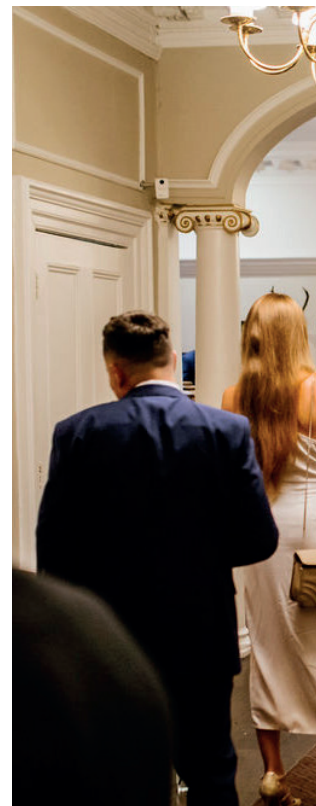

We think little details and home comforts matter; we always have candles, flowers and lanterns in our hallway and our shelves, tables, nooks and crannies can be populated with your own details to make it truly feel like yours for the day.

Our Music Room is the loveliest cosy space that can be used as a coffee bar, living room, photo booth, soft play, food grazing or any other extras you may have.

We love to talk about the weather here in Britain don’t we... well, apart from when it’s forecast to be chucking it down on your wedding day. Jokes apart, on a rainy day Ashfield House is every photographer’s dream. There are so so many places inside for dramatic portraits, natural documentary photography and group shots.

Ashfield House never stops evolving. Every year we decorate, renovate and bring up to date our beloved house so it always keeps its unique ‘modern yet classic’ edge. Personally, I’m thrilled to have a legitimate reason to indulge my compulsive shopping urges because it means theres always something exciting and new around the place!”

Katie Street, *Managing Director*

Whether your vibe is Downton Abbey formal or Beatrix Potter rustic you'll find what you love at Ashfield, thanks to our Head Gardener Phil and his team. Each year his plans get more ambitious and our eclectic garden becomes more gorgeous!

From sunlit lawns for your drinks reception, romantic little corners for stolen moments and grass ridges for kids (and big kids) to roll down, the gardens at Ashfield House are the dream backdrop to your day.

On your wedding day, our gardens become your playground. As you go and explore, you'll discover over the top herbaceous borders, sweeping lawns, manicured topiary, intimate woodland paths, a tiny tin chapel and fragrant David Austin roses weaving through trees to name but a few delights. Your photographer will be spoilt for choice and your album (or your Instagram!) will be overflowing with show stopping wedding portraits.

At Ashfield House, the gardens aren't just scenery, they are where you step out of your wedding car, throw your confetti, eat your canapes, raise your glasses and play lawn games.

We are beyond excited to announce that we are working on creating an outdoor ceremony area; somewhere quirky, romantic and charming to match the rest of our house and gardens.

The Ceremony

Couples nowadays have lots of choice about their ceremony (which is brilliant) but it can make things a bit confusing (not so brilliant).

If you get married here with a registrar you'll pay us for the Ceremony Room and you'll need to book the registrar direct at www.wigan.gov.uk. You can choose any time you like but it's a good idea to chat with us about timings before you book to make sure all the aspects of your day flow nicely together.
